# Challenges of Balancing

# FY14 Unknown Budget Impacts

- Sequestration (potential 6-10% reduction) Unknown
- Health care rates increased (potential 8-12%) Unknown
- Fuel Costs Unknown
- Potential State Reductions Unknown
- Request from County BOS to reduce budget by 5%

\$1,203,117 (excluding debt service)

# FY14 Considerations

- How do we close the budget gap?
  - department needs vs. the presented proposed budget
- Do we have the ability to recommend additional compensation?
  - 2% pay increase for SOQ funded positions\* as presented by the Governor
  - Local cost in FY14 - \$337,000
  - Total FY 14 cost to provide salary increase - \$600,000
  - In FY15, additional funding of \$258,000 would be required from local funding to maintain the increased salary. Total FY 15 impact on local funding - \$600,000

**\*SOQ funded positions include teachers, guidance counselors, librarians, principals, assistant principals, and teacher aides.**

# FY14 Considerations

- Department Requests
- Budgetary Gap
- Governor's Proposed 2% raise for SOQ funded positions

# A look ahead...

- **Increased funding** – Additional services with choices about allocation

- Special Education mandates
- Rise in diesel fuel costs
- Electricity costs
- Technology infrastructure needs

- **Level funding** – not allow IWCS to continue same level of services and will directly impact classroom instruction and necessitate reductions in instructional and non-instructional staff.

- **Reduction in Budget levels** – significant impact on classroom instruction and necessitates need to eliminate instructional and non-instructional staff. Effects from reductions will be wide ranging and impact all IWCS services and programs.
